Mr. Stanwood R. Morss,
41 Phillips Street,
AMHERST, Mass.

Dear Mr. Morss:-

We sincerely thank you for your "DX" report of CHEX received October 8th between 7:30 and 7:39½. Your report corresponds favourably with our broadcasting in that period.

CHEX has been in operation since March 31st of this year, transmitting a thousand watts, directive array on 1430 KCS. Although directive array tends to limit our signal in a number of specified directions, still reports from the others have been favourable. Interference from WBYN in your section is expected. Incidentally, WBYN is one station we are endeavouring to protect.

We would appreciate further reports from you or any member of your Universal Radio DX Club. All reports will be replied to. At the moment, we have not arranged any DX programs, but should one be planned, we'd be very glad to notify you of same.

Thank you, we are,

Yours very truly,
PETERBOROUGH BROADCASTING COMPANY LTD,

Karl E. Monk,
Musical Director.
